#### Financial Compliance

Keep current with revenue recognition, complex accounting standards and regulatory changes with automatic software updates.

#### Real-time Insights

Gain visibility into your business through customized dashboards and slice and dice data with easy to use reports and report writers.

## Business Software & Consulting

Software is becoming an increasingly critical tool to help businesses gain efficiency and stay competitive, but the disruption involved in implementing new software can be significant. Cargas has a long history of helping businesses successfully implement new accounting, CRM, and operational systems, while always staying focused on transforming processes and driving business value.

### Team

Cargas is an employee-owned company with a unique culture that attracts and retains superior talent, providing a deep pool of **experience** to draw on when implementing mid-market business software. Our team of CPA's, manufacturing, distribution and service experts, software engineers and Ph.D.'s have **expertise** in a wide variety of software packages and offer the highest level of service and support to ensure success.

### Approach

Our approach has always been to help companies **transform** processes through software and a clear understanding of your business. Whether it is an out-of-the-box implementation or a complex customization, our **proven processes** and adaptable project management keeps projects on track and helps you get the most out of your system with minimal disruption.

### Solutions

With a diverse set of **products** and an objective mindset, our team will help you find the best solution. Also, as a **strategic partner**, when packaged software doesn't offer the total solution, we offer software **customization** integrated directly into the core business software, to help handle your business' unique processes.

### Culture

Cargas was founded on a set of **core values** centered around the idea of shared success for customers, employees, partners, owners, and community. We care deeply about your success and leverage our **connections** with the software companies we represent to help us achieve the highest level of service and ensure your challenges are met. We are also employee-owned which ensures that we are a built to last company and a **long-term partner**.
