Key Benefits

Operational Efficiency

Automate business processes, reporting, and integrations while eliminating spreadsheets.

Scalable Solution

Highly scalable on-demand platform so you can quickly deploy and configure users, modules, and entities.

Streamline Period Close

Increase efficiency at month-end by closing the sub-ledgers in any order that is most efficient to your business before closing the books.

Real-time Insights

Gain visibility into your business through customized dashboards and slice and dice data with easy-to-use reports and report writers.

Business Software & Consulting

Cargas has a long history of helping businesses successfully implement new accounting, CRM, and operational systems, while always staying focused on transforming processes and driving business value.

Team

Cargas is an employee-owned company with a unique culture that attracts and retains superior talent, providing a deep pool of **experience** to draw on when implementing mid-market business software. Our team of CPAs, manufacturing, distribution and service experts, software engineers, and PhDs, have **expertise** in a wide variety of software packages and offer the highest level of service and support to ensure success.

Approach

Our approach has always been to help companies **transform** processes through software and a clear understanding of your business. Whether it is an out-of-the-box implementation or a complex customization, our **proven processes** and adaptable project management keep projects on track and help you get the most out of your system with minimal disruption.

Solutions

With a diverse set of **products** and an objective mindset, our team will help you find the best solution. Also, as a **strategic partner**, when packaged software doesn't provide the total solution, we offer software **customization** integrated directly into your core business software, to help handle your business' unique processes.

Culture

Cargas was founded on a set of **core values** centered around the idea of shared success for customers, employees, partners, owners, and community. We care deeply about your success and leverage our **connections** with the software companies we represent to help us achieve the highest level of service and ensure your challenges are met. We are also employee-owned, which ensures that we are a built-to-last company and a **long-term partner**.
