Vertex Cloud Indirect Tax

Businesses Face Ever-changing Tax Legislation

In many jurisdictions, more and more items and services are becoming taxable and various states have made their tax structures increasingly complex. How can your business stay current with these ongoing changes and ensure compliance, especially if you do business in multiple locations? The answer is Vertex® Cloud Indirect Tax. Let Vertex Cloud keep your tax rates and rules up-to-date while you focus on growing your business.
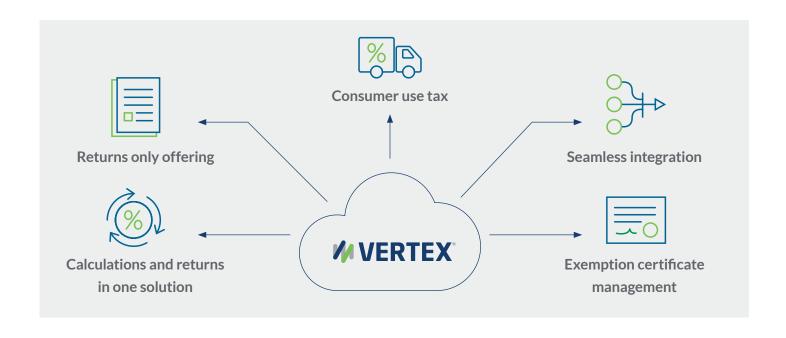

The Most Trusted Name in Tax

Created by the global leader in enterprise tax software and services, Vertex Cloud is designed to save time, effort, and risk associated with calculation, return, remittance, and compliance for any-sized business.

Exemption certificate management

Features of Vertex Cloud Sales and Use Tax Automation

Everything your business needs to manage sales and use tax. It's that simple.

Connectors

Connect with Vertex Cloud from industry-leading ERPs, procurement solutions, and e-commerce platforms.

Calculations and returns in one solution

Vertex Cloud automates tax calculations and generates signature-ready PDF returns in one solution.

Returns only

Easily populate and manage sales and use tax returns with data from any financial system to save time, reduce risk and improve compliance. No custom integration or connector required.

Exemption certificate management

Bulk upload exemption certificate or upload them one at a time, set effective and expiration dates, store the certificates, and manage customer exemptions with Vertex Cloud.

Consumer use tax

Vertex Cloud enables you to calculate and report consumer use tax, including for accruals, asset and goods management, inventory removal, and purchase orders.

Benefits of Vertex Cloud

Vertex Cloud runs on the most advanced calculation and returns software platform in the industry. The solution combines innovative tools, up-to-date tax content, and an intuitive interface to enable the following business benefits:

+ Reduced time and effort to perform sales and use tax calculations

+ Greater accuracy of calculations and compliance data

+ Faster user adoption with anytime, anywhere accessibility

+ Scalability to meet businesses' changing sales and use tax requirements

+ Reduced risk with the backing of a proven market leader in tax technology — Vertex, Inc.

+ Extended functionality for all types of businesses across the globe

+ Support for sales tax, consumer use tax and value added tax (VAT) across the globe

+ Faster implementation, return on investment (ROI), scalability and lower total cost of ownership (TCO)
